

Eco Church: Tips, Ideas and Prayers

01 July 2026

Prayer for Creation

Dear Lord, maker of mountains and murmuring streams,
whose breath stirs the dawn and wakes the seas,
teach us to walk gently upon the earth,
to tread as guests in Your boundless home.
Let our hands plant where others have torn,
let our hearts burn with the fire of care;
may we hear the cry of the soil and sky,
and answer with lives of tending and peace.
Bless the winged and the rooted,
the hidden and the seen,
the waters that cradle life,
the winds that carry song.
In the turning of seasons,
keep us faithful stewards,
tilling not for greed but for grace,
until all creation rests in harmony with You.
Amen

Eco-Friendly Tips

For Churches – Reduce car use: Organise carpooling within your church community.
Sharing transport is kind to the environment.

For individuals – Conscious Consumerism: Shop for clothes second-hand and donate your old clothes if they are still in good condition!
