

Eco Church: Tips, Ideas and Prayers

12 August 2026

Care for Creation Prayer (Day of the Eclipse)

Creator God,

As the light of the sun is briefly hidden,
remind us of the wonder and mystery of your creation.

Open our eyes to the beauty of the world you have entrusted to us,
and our hearts to care for it with love and humility.

May we treasure the earth, protect its fragile beauty,
and as we shared at our recent Celebration day - be people of living hope for all creation.

Amen

ECO-Friendly Tips

For Churches: Make the Eclipse a moment of wonder: Come along tonight (12th) 6pm at Tipton Green. Let's pause together and appreciate and reflect on the eclipse and the incredible complexity of creation.

For individuals: Use the natural light: If possible, keep lights off during daylight hours and notice how much natural light we already have.
