

Eco Church: Tips, Ideas and Prayers 29 July 2026

Prayer for Creation

Creator God,
You spoke light into the darkness,
breathed life into the dust,
and called all that You made “good.”
As we look on in awe at Your handiwork -
the rolling seas, the whispering trees,
the skies painted with dawn and dusk.
We come with gratitude, but also with humility,
knowing that we have not always cared for Your gift as we should.
Show us how to be good stewards of your wonderful earth.
We thank You for the beauty that surrounds us:
for the song of birds at daybreak,
for the fragrance of rain on dry earth,
for the harvest of fields and gardens.
We thank You for the intricate balance of ecosystems,
for the wonder of seasons,
and for the joy of sharing this planet with all living creatures.
Amen

Eco-Friendly Tips

For Churches: Water stewardship: As the very dry weather continues, water church grounds wisely. Consider installing water butts or drought-resistant plants.

For Homes: Save water in dry months: Collect rainwater in gardens, use washing up water to water plants and try to water them early or late in the day.
